

A Proven Solution

A Proven Solution

PowerSchool is the leading and fastest growing student information system (SIS) available today, supporting nearly 10 million students in all 50 states and over 65 foreign countries. Last year, more schools and districts selected PowerSchool than any other SIS product on the market. Today, PowerSchool supports a wide range of implementations – including schools as small as 25 students, districts as large as 80,000 students, and statewide deployments.

Impact to Student Achievement

The deep functions of PowerSchool allow today's educators to make real-time decisions about each student, while creating a collaborative environment for parents, teachers and students to work together to prepare students for the future. Access to real-time information allows student performance to be addressed in a timely manner.

Easy to Learn, Easy to Use

By leveraging the latest web technologies and evolving web design standards, PowerSchool presents users with a clean interface that is easy to learn, and easy to use. With over a decade of experience as a completely web-based system, PowerSchool stands alone as the deepest and most flexible SIS available to meet the needs of K-12 districts. Through SIF® Compliance, an open platform, and the ability to share enhancements with other users, PowerSchool allows each customer to easily tailor the best solution for their needs.

e-Funds for Schools

Online Payments

e-Funds for Schools is the most sophisticated and secure electronic payment service that gives parents the ability to pay for all school activities without writing a check or giving their children cash. Parents can pay the school 24 hours a day, from their checking account, debit, or credit card.

e-Funds for Schools is a free service to the school and is fully integrated with PowerSchool and PowerLunch.

Cash Tracker and Electronic Receipts

This complimentary module can be added to the e-Funds for Schools system with the highest degree of payoff.

Cash can be accepted and tracked from any location within your school district, or consolidated at a single drop box location. Whether you accept cash or checks from a student, the system emails a receipt to the parent and automatically posts the payment into PowerSchool and PowerLunch.

Electronic receipts and cash payment history by student, parent, building, and school activity allows both the school and parent to verify all payments quickly and easily.

Fund Raising

We understand how important it is to your school to generate as many fund raising dollars as possible. With e-Funds for Schools, your school may establish as many fund raising events on our online payment and donation system that may be needed to assist in meeting the school's fund raising goals and objectives.

Sign-up and Pay

In one easy step, students and parents may view all available school activities, including coach information, associated costs for required equipment, and fees that may apply. Then, with the click of the mouse, they can reserve their spot and make payments that are due.

If activities have limited space, when space is no longer available, students may be placed on the “waiting” list. The system automatically sends an email if a cancellation has been received and space becomes available.

Summer school Sign-up and Pay has never been easier. Enrollment will begin and end on the exact time and date specified by your school, giving all students an equal opportunity to reserve their seat.

Adult education registration just got easier with Sign-up and Pay. Continuing education and GED applicants can view class times, instructor information, and pay fees.

Payment Reports and Bank Deposits

Your school will be amazed at the number of friendly-yet-detailed reports available in e-Funds for Schools. The system generates standard daily and monthly payment reports, and in addition, you can control sort options, filters and much more.

The system provides a full audit trail for your bookkeepers and will deposit funds into an unlimited number of specified bank accounts, allowing your school to track and separate funds as needed.

About Pearson

As the industry leader in SIS and performance solutions, Pearson offers schools and districts access to deep expertise and an unparalleled selection of technologies that address the challenges of achievement, reporting, growth, and scalability. Our student information systems enable schools and districts to leverage technology to ease reporting burdens, open up lines of communication and simplify internal processes, such as scheduling and grading.

We believe that providing today’s schools and districts with a choice of flexible, interoperable, and customizable technology solutions is critical to establishing the infrastructure needed to power performance across all stakeholder groups, be it schools, districts, administrators, teachers, or students.

About e-Funds for Schools

Magic-Wrighter, Inc., the parent company of the e-Funds for Schools product and services, was founded in 1982. It provides electronic payment services to over 4,000 schools, 14,000 businesses, 500 municipalities, and 500 financial institutions.

The company meets all PCI requirements for credit/debit card payment services. In addition, the data center has audits conducted by state and federal regulatory agencies.

Over the past 10-years, the e-Funds for Schools product and services have been continually enhanced in order to meet the payment processing needs of schools. e-Funds for Schools is nationally known as the best and most advanced payment processor for schools K-12 that is still free to all schools.
