

A Proven Solution

A Proven Solution

PowerSchool is the leading and fastest growing student information system (SIS) available today, supporting more than 8.5 million students in all 50 states and over 65 foreign countries. Last year, more schools and districts selected PowerSchool than any other SIS product on the market. Today, PowerSchool supports a wide range of implementations – including schools as small as 25 students, districts as large as 80,000 students and statewide deployments.

Impact to Student Achievement

The deep functions of PowerSchool allow today's educators to make real-time decisions about each student, while creating a collaborative environment for parents, teachers and students to work together to prepare students for the future. Access to real-time information allows student performance to be addressed in a timely manner.

Easy to Learn, Easy to Use

By leveraging the latest web technologies and evolving web design standards, PowerSchool presents users with a clean interface that is easy to learn, and easy to use. With over a decade of experience as a completely web-based system, PowerSchool stands alone as the deepest and most flexible SIS available to meet the needs of K-12 districts. Through SIF® Compliance, an open platform, and the ability to share enhancements with other users, PowerSchool allows each customer to easily tailor the best solution for their needs.

About infosnap

infosnap®, inc. is the leading provider of online admission and registration solutions designed specifically for Pre K-12 independent schools, public school districts and charter schools. infosnap solutions provide: (i) secure, customized online forms based on your existing processes; (ii) powerful administrative portals for the review, editing and managing of data submitted online through infosnap forms; (iii) and data delivery of submitted data to various student information systems, including PowerSchool.

infosnap products and services help the schools collect the needed information online to complete the student registration process, which is then easily delivered to their PowerSchool student information systems to enroll the student in school.
